

# ASHISH JAIN

Software Engineer

jashish9870@gmail.com | 9870875863 | Delhi, India

## EDUCATION

### Meerut Institute of Engineering and Technology

Computer Science Bachelor of Technology

Percentage: 84.5%

Meerut

2019 - 2023

### Central Board of Secondary Education (CBSE)

Science INTERMEDIATE (10+2)

Percentage: 92%

Meerut

2017 - 2019

## EXPERIENCE

### Nagarro | Associate Software Engineer

Mar 2023 - Present

Utilized Java and Spring Boot to build robust backend applications, ensuring high performance and reliability. Implemented and maintained RESTful APIs for seamless communication between frontend and backend components.

Developed responsive and user-friendly web interfaces using frontend technologies such as React and Angular.

Implemented secure authentication mechanisms, enhancing the overall security posture of web applications.

### Ducat | Java Trainee

Completed 3-month Core Java training program, gaining hands-on experience in application development.

Proficient in core Java programming, objectoriented principles, and data structures.

Collaborated on real-world projects, demonstrating teamwork and problem-solving skills.

## SKILLS

Programming Languages: Java, TypeScript

Libraries/Frameworks: Spring, Spring Boot, Angular, Hibernate, React, React, Smart GWT, GWT, Next.JS

Tools / Platforms: Eclipse, Jira, Vs code, Jenkins, AWS, Azure, ActiveMQ, Netlify

Databases: Mysql, Sql, Postgressql

## PROJECTS / OPEN-SOURCE

### Community Product Website (Full Stack)

*Spring Boot, Angular, Mysql, JWT, Spring Security*

Created a dynamic Full Stack application using Spring Boot and Angular for a community driven product website.

Designed an intuitive user interface for product listings, reviews, and community interactions.

Integrated backend functionalities for user authentication, product management, and real-time updates.

### Hospital Management System

*Java, Swing, Mysql*

Developed a Hospital Management System to streamline healthcare processes using Java and MySQL.

Implemented features such as patient registration, appointment scheduling, and billing.

## CERTIFICATIONS

- Software Engineer Certificate - HackerRank.
- Java - Ducat.
